

Carry on commenting

Healthwatch Gloucestershire is the county's independent health and social care champion. We take your ideas and experiences of local health and social care services to the decision-making organisations, so together we can make a difference.

We do this because we are passionate about having a health and social care service in Gloucestershire which is shaped by the people who use it, one which works for everyone.

We aim to speak to as many residents in Gloucestershire as we can, young and old and all those in between! Our campervan will take our staff and volunteers to meet people around all four corners of this huge county to make sure your voice is heard.

We'll collate all the information and share your views with those with the power to make change happen.
