May 2022

Dear Applicant

Thank you for your interest in joining Healthwatch Gloucestershire in the role of Engagement Officer (ICS).

This is a varied and interesting role that will focus on understanding how well health and care services join up in the 'One Gloucestershire Integrated Care System'. You will engage with people across the county, raising awareness of our work and encouraging people to share their feedback to help improve local health and care services. You will build networks and productive relationships with voluntary and community sector organisations and service providers. You will develop and manage engagement and research projects and analyse and report on project findings. You will join a small staff team based in a comfortable office (with free parking) in Quedgeley.

Healthwatch Gloucestershire is part of Evolving Communities CIC, a community interest company which specialises in delivering high quality local Healthwatch services in Dorset, Gloucestershire, Somerset and Wolverhampton. The company also delivers a range of consultancy services focused on providing local people with a strong voice in health and care.

In this pack you will find a job description including person specification, application form and diversity monitoring form. If you have any questions about the post then you are welcome to contact me directly on 01452 504989, Freephone 0800 652 5193, or you can email helen.webb@healthwatchgloucestershire.co.uk

We look forward to receiving your application by midnight on Sunday 26 June 2022. Please note that interviews will be held on Monday 11 July. We will contact you to let you know whether or not you are invited to interview.

Thank you for taking an interest in Healthwatch Gloucestershire.

Yours sincerely

Helen Webb
Healthwatch Gloucestershire Manager
